

Fastfill Liquid Cylinder Valve

CV1595 - 45kg

CV1596 - 90kg

Application:

Liquid cylinder multivalve to control fill and withdrawal from 45kg and 90kg LPG Cylinders.

Features:

- Fastfill 45kg Cylinders
- CGA 555 Standard cylinder valve outlet
- Filler port with integral double back-check
- Fixed liquid level gauge
- Fixed pressure relief valve

Specifications:

- Designed, Certified and Tested to: UL 1769
- Inlet: 3/4" M.NGT
- Service Connection: 0.885" -14 NGO-LH-EXT (CGA 555)
- Filler Connection: 1 3/4" ACME-2G-EXT (ASME B1.5)
- Working Temperature: -40°C to 55°C
- Hydrostatic Test Pressure: 85 bar
- Leakage Test Pressure: Min 0.1 bar to Max 25 bar
- PRV Set Pressure: 26 bar (375 PSI)
- PRV Flow Capacity: 480-393 SCFM
- Length of dip tube: as required

Where would we be without Gas?
